

Pelorus

24 October 2013

Dear Mr Alessandro Sartore

I would like to take the time to express my gratitude for your hospitality and generosity with last night's event. Highly unnecessary, but very much appreciated none the less.

It was an added bonus having 2 of your wonderful employees at the table, Xenia and of course your wonderful daughter Ambra.

Both of these lovely ladies are really the back bone of my success and have helped me through some very difficult and busy times during my yachting career. They have always dropped everything to help me in whatever situation no matter the time of the day or night and this has truly helped shape my success.

I am very grateful to have these ladies support behind me the whole time and certainly makes me feel comfortable placing orders of such a large volume with them. Obviously I have a strong professional relationship with Xenia and this has been built up over years and years of working together and having a mutual understanding of how each other works. I simply could not achieve what I need to achieve on a daily basis without Xenia and I know many Captains and Chefs who carry the same opinion. So please pass on my gratitude to Xenia and Ambra also.

Mr Sartore, once again thank you for you kindness and generosity. I look forward to building this relationship with All Services even more in the future.

Sincerely

Troy Harrison
