To whom it may Concern.

Business reference letter for All Services

I would just like to “put pen to paper” on behalf of All Services as an expression of thanks to them for all the un comparable support they have supplied me as Captain over 10 years of working together.

Alex and his team have furnished an elite service with an un paralleled friendly, courteous, discerning and efficient manner.

His staff are always thoroughly professional and are available to help find solutions no matter what the time of day.

The job of Captain seems to evolve year on year and become ever more complicated and demanding yet many of the success`s are down to the team behind the scenes “making some magic happen.” It is with this in mind that when cruising in Italy I have had no hesitation in turning to Alex`s team to help” make it happen repeatedly”

I wish success to the All Services team, I look forward to a continued great working relationship and have no misgivings in recommending them to any Owner, Captain or Crew.

Very Best

Russell Short

Captain – M/Y WILLOW
